OUR SHARED VISION

Our goal is to understand our clients' aspirations of design and function; delivering if not exceeding these targets. At all times we are aware of our responsibility with regards these challenges towards our clients of maintaining cost effectiveness and delivery timescales.

We have demonstrated our ability in this with a portfolio of clients from diverse business sectors such as retail, leisure, hospitality, healthcare, commercial and public entities.

MORE ABOUT US

Since its inception, Rosebirch has built its reputation on being professional and the delivery of exceptional fit-out solutions to our clients throughout the UK and Europe. Utilising the most modern-day materials but with the traditional craft skills of a directly employed workforce working from our manufacturing facility and on site. We also utilise the services of tried and tested subcontractors, that share in the values of the company to deliver exceptional retail and commercial environments, on time and on budget.

OUR SERVICES

We operate from a modern manufacturing facility, continually reinvesting in modern machinery including CNC, to deliver joinery-based components.

We thrive upon the challenges of bespoke fabrication utilising materials as diverse as hardwood, veneers, glass, metals to solid surfaces. All fabricated by our in-house skilled craftsmen. These functions are led by an experienced management team who deliver the roles of project management, estimating, design co-ordination and setting out. We actively train apprentices, managed in partnership with the CITB and complete ongoing training for all employees. Our people are always at the heart of our business.

OUR PRINCIPLE SERVICES:

- Fit-out
- Decoration
- Small works
- Bespoke Joinery Manufacturing
- Mall Kiosks
- Solid Surface Fabrication

FIT-OUT SOLUTIONS

Either employed as a sub-contractor by a main contractor to install specialist bespoke joinery or working as the Principal and Main contractor directly for our clients. Our team utilise years of experience and dedicated training to manage the various elements of the project from initial contact to completion. We consult directly with clients and their designers to assist with developing concepts to ensure viability of cost, construction and longevity. We can identify and manage any specialist sub-contractors that will be required to work in partnership with the team to achieve the goal of delivering the clients aspirations.

BESPOKE JOINERY MANUFACTURING

Manufacturing unique joinery components using the skills of our workforce is long established with our clients. From traditional joinery-based skills, with the benefit of modern CNC and classical machinery. Working from our production facility we can facilitate multiple unit production to individually crafted components, utilising all our in-house resources to deliver your every need.

We closely manage our supply chain to ensure the right materials are sourced and delivered in time to meet the required delivery timescales.

HUDSON QUAY

SOLID SURFACE FABRICATION

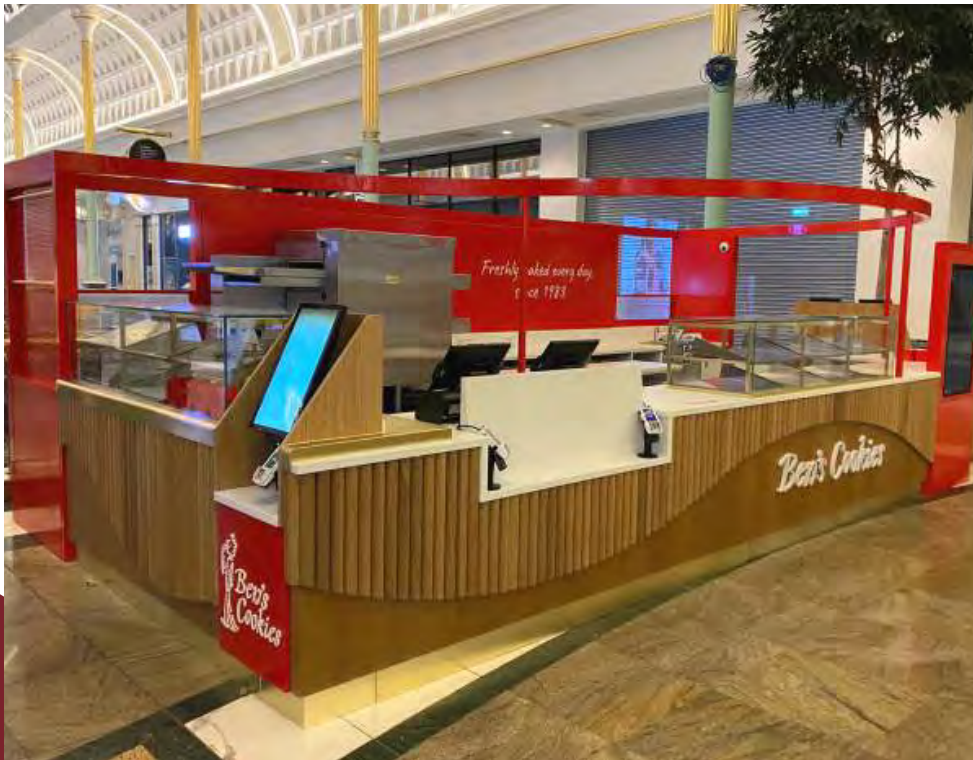

We are widely recognised for our skill and experience for working with Solid Surface from all the leading manufactures with inhouse capabilities of thermoforming and complex resin inlay

- Avionite
- Hi Macs
- Tristone
- Corian
- Krion
- Staron

MALL KIOSK PROJECTS

We delivered full planning, coordination and installation of a stand-alone retail kiosk including setting out design of the unit utilising the clients existing brand identity. The coordinating role included obtaining design approval with landlord's agents and gaining local authority consent. Manufactured in our factory and delivered to site for assembly as this minimised the time on site.

SMALL WORKS DELIVERY

We appreciate that not all of our clients have experience of the building industry or the time to directly manage their projects and although they know their requirements may not be sure of how best to achieve these. Our Project Managers can bring everything together and deliver great solutions exceeding our clients expectations on time and on budget.

TIMBER SHOP FRONTS

Rosebirch has a long history of producing hardwood traditional shopfront both to meet heritage requirements and deliver bold design concepts.

OUSEBURN FARM

Ouseburn, Byker 

DECORATION SERVICES

Our in house team of decorators have over a decade of experience delivering high quality solutions to commercial and residential customers throughout the UK and Europe. Delivering tailor made solutions to exceed customers expectations, breathing new life into your space.

All operatives hold CSCS card and supervisors have IPAF and PASMA training.
